Custom 3D Printed Parts for Motorhomes & Caravans

Current catalog of RV 3D printed parts. Custom parts or replacements for damaged parts can also be designed and printed.

3D printing process may result in slight cosmetic variations; strength and functionality are unaffected.

- Door Clip
- Camping Mat Holders
- Bathroom Corner Storage
- Kitchen Paper Towel Holder

## RENAULT MASTER CAB

- KG Button Reminder
- Renault Cabin Slide Out Drawer
- Renault Cup Holder Insert
- Windscreen Wiper Stand-Offs

## AWNING &amp; OUTDOOR

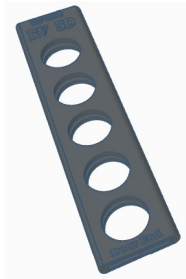

## Awning Clamps

**Black | Per Pair**

Instantly upgrade your awning's stability. These clamps attach to the awning legs, positioning them just above the tightening knob to stop the legs from slipping or collapsing — works in both upright and when leg are attached to the side of the motorhome. The integrated accessory track lets you easily slide in attachments such as a lamp holder, tie-down strap, or any other custom accessory.

**\$29.95**

## Latch Extender Support

**Black**

Reinforcement was necessary for the latch extender due to the inherent flexibility of the plastic, which led to bending and accidental detachment. A subsequent Version 2 featuring molded ribs failed to provide the required structural rigidity. So this sleeve fixes this issue.

*Note: you must already have the latch extender.*

**\$19.95**

## Awning Pegs

**White | Set of 4**

Easily slide these pegs into the Fiamma awning channel to create a simple, overhead space for hanging and drying small or light clothing items.

**\$19.95**

## Awning Slider Tent Pole Support

**Per Pair**

Skip the drill and keep your awning hole free. This slider support allows you to secure a tent pole without making permanent modifications. It simply slides into the existing awning track and braces itself firmly against the frame for a sturdy, reliable fit.

**\$24.95**

### Inside Awning Slide-On Tent Pole Support

**Per Pair**

Secure your tent pole without drilling a hole. This slider support is designed for internal use, allowing you to brace a pole even while a privacy screen is occupied in the awning track. Simply slide it into place for a sturdy, non-permanent setup.

**\$27.95**

## CLIMATE & COMFORT

### Aircon Deflectors

**White Corflute**

These hinges support the AC deflectors, which are key to controlling and optimising your climate. The deflectors help you precisely aim the air, ensuring faster, more effective cooling or heating exactly where you need it.

**\$44.95**

### Diesel Heater Cover

**Black**

This cover is designed to completely obscure the light from your diesel heater display. Ideal for light sleepers, it eliminates light spill at night, helping you achieve a perfect blackout environment.

**\$19.95**

## SECURITY

### RV Window Lock

**White | Set of 4**

Secure your window with these lever sleeves. Once installed over the window lever, they act as a visual security measure, blocking outside access. Crucially, they continue to secure the window even when it's partially open and engaged in the initial latched position.

**\$34.95**

## CASSETTE TOILET

## Cassette Cleaning Slider

The integrated slider allows you to quickly connect a hose, giving you the ability to fill and flush the cassette for a complete, deep-cleaning cycle.

**\$19.95**

*This connection is separate from the standard rinsing process and should not be used when simply emptying the cassette.*

## STORAGE &amp; ORGANISATION

## Storage Pockets

**White, Black or Beige | Price per pocket**

These compact storage pockets easily attach to unused 'dead spaces,' like the inside of your front door or wardrobe panels, turning wasted areas into convenient storage for small items. Various styles and sizes can be made to suit your requirements.

**\$19.95**

*Custom colours available upon request.*

## Door Clip

This clip is the solution for the common issue of the metal door latch separating at the top. It securely clamps the latch together, preventing it from splitting apart or coming off. The latch remains fully functional with the clip installed.

**\$14.95**

## Camping Mat Holders

**Per piece**

Secure your outdoor mat without damage! This unique clamp grips the mat's edge firmly, ensuring a taut hold without the need for holes. Pull ring included to assist with pulling mat holders out of the ground.

**\$7.95**

### Bathroom Corner Storage

**Set of 3**

Maximise your bathroom storage with this set of three graduated trays: (L, M, S). They are custom-sized to utilise the often-wasted bathroom corner space situated above the 240V outlet.

**\$34.95**

### Kitchen Paper Towel Holder

**Beige, Black or White**

Utilise unused space with this paper towel holder designed to fit perfectly in the corner above your sink. Secured using double-sided tape for a drill-free installation. Customisable faceplate patterns available upon request.

**\$32.95**

**RENAULT MASTER CAB**

### KG Button Reminder

Never forget to engage the KG button again. This clip attaches easily to your steering wheel, serving as a highly visible reminder to complete that crucial pre-drive step.

**\$14.95**

### Renault Cabin Slide Out Drawer

**White or Black**

Maximise your Renault's interior with this custom-fit storage bin. Designed to slide perfectly into the existing overhead recess in the cabin roof, turning wasted space into a practical storage solution.

**\$24.95**

### Renault Cup Holder Insert

**Per Pair**

Upgrade your Renault's centre console with this custom cup holder insert. By extending the height of the original recess, it provides a deeper, more secure fit. Specifically designed as a stable phone mount — custom sizes for other items available.

**\$24.95**

## Windscreen Wiper Stand-Offs

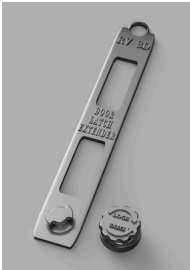

### Per Pair

Prevent baking: On warm days your windscreen acts like a heat sink, reaching temperatures much higher than the air. This heat can harden, crack or reduce wiper flexibility. Stand-offs create a small air gap to keep the rubber cool and make your wiper blades last longer.

**\$19.95**

## Door Latch Extender

### Black | Includes Lock Knob

Provides the clearance needed to keep your house window wide open while the door is secured. Stronger than the original door latch with a rapid-lock quarter-turn mechanism. Fits most standard RV door latches · no tools required. Includes a matching 3D printed quarter-turn knob with textured grip for fast, secure locking and unlocking.

**\$34.95**

# CUSTOM PARTS & REPLACEMENT COMPONENTS

Can't find what you're looking for? We design and print custom parts to suit your specific needs — from one-off replacements to bespoke accessories tailored to your motorhome or caravan.
